ABSTRACT

This is a bibliography of books, periodical articles and pamphlets on population and family education which are available in the library of the Population Education Clearing House Service of the Unesco Regional Office for Education in Asia, Bangkok. Most of the documents cited were published in the 60's and 70's with the exception of a few which date from the 50's. The bibliography is divided into the following three sections: 1) Population; 2) Population and Family Planning; and 3) Family Planning. In each section, publications not relating to any specific country or dealing with countries outside Unesco Asian Region are listed under General. Publications dealing with the Asian region are presented under Asia and those referring to a specific Asian country are listed under country names arranged alphabetically. Entries referring to more than one subject or country are repeated. All entries are in alphabetical order by author names. (Author/RM)

Introduction

In the preparation of this new bibliography, more than 400 titles have been added to the previous 1972 list. Documents listed include books, periodical articles and pamphlets available in the library of the Unesco Regional Office.

The bibliography is divided into three sections: Population, Population and Family Education, and Family Planning. In each section, publications not relating to any specific country or dealing with countries outside the Unesco Asian Region are listed under "General". Publications dealing with the Asian region are presented under "Asia" and those referring to a specific Asian country are listed under country names arranged alphabetically. Entries referring to more than one subject or country are repeated.

All entries are in alphabetical order by author names, and publications of an institute can be also found under the name of the author (if available). Books, reprints, and pamphlets are identified by classification number, P, and V.F. respectively. In addition, Population Education Curriculum materials are identified by an asterisk.

Introduction

This is a list of materials added to the Population Education Clearing House collection during the period February - June 1973.

The bibliography is divided into three sections: Population, Population and Family Education, and Family Planning. In each section, publications not relating to any specific country or dealing with countries outside the Unesco Asian Region are listed under "General". Publications dealing with the Asian region are presented under "Asia" and those referring to a specific Asian country are listed under country names arranged alphabetically. Entries referring to more than one subject or country are repeated.

All entries are in alphabetical order by author names, and publications of an institute can be also found under the name of the author (if available).

Call numbers are added at the end of each entry: the letters represent the following:

- P = Periodical
- R = Reference
- V.F. = Vertical File or pamphlet material.
